Congratulation and applause

to MASA Newsletter for completing FIVE years of its issuance.

This is 60th Issue you are going through,,,

Dear Brothers and Sisters, Assalamo Alaikum WRWB

As you are aware that Memon Welfare Society was founded 6 years ago with its first name MASA in April 2008. The first year after formation, MASA experienced various challenges and impediments on the way to progress. However, MASA overcame all challenges, obstacles during first year of its infancy period and took off very nicely heading towards noble cause. Al Hamdo Lillah, with sincere and selfless crew members, MASA flight is still progressing gradually & graciously with its noble aims and objectives to serve the community.

Once the painful infancy period of first year of MASA was over and it started rendering its social welfare services to the community in full swing, an idea of monthly Bulletin was suggested by brother Nasir Ibrahim, first Joint Secretary, in June 2009. The idea was given due consideration by Managing Board in a meeting and was agreed unanimously to strengthen relationship between MASA and the community through monthly Bulletin. Brother Tayyab Moosani, Transitory General Secretary that time, took this idea very seriously and offered his services to bring out monthly MASA Newsletter. Thus a Newsletter Committee was formed that consisted of two members only M/s Nasir Ibrahim and Tayyab Moosani who with consultation & guidance of Brother Yaqoob Moosani (former Patron) commenced bringing out monthly Newsletter with effect from 1st July 2009 regularly.

The committee has recently been extended from two members to five respectable members that are Tayyab Moosani, Nasir Ibrahim, Rashid Kasmani, Irfan Kolsawala, M. Salim Burmawala.

We are thankful to the community for sending us their compliments about newsletter from time to time. Just to evaluate the importance and necessity of the Newsletter, we requested community to send us their response in one or more words whether the newsletter is important, informative, useful, beneficial for the community or not and it should be continued or not?

Public Opinion / poll on the 5th Anniversary of Newsletter, It should continue,,,, YES or NO.
Overwhelming response received in one word "YES".
Also several responses were in more than one word, few of them are reproduced below f y i only:-

Yes, the Newsletter is very useful and informative and also an excellent source of information between MASA and community members about social and welfare activities and certainly it should be continued.

Thanks & regards,
Abdul Samad Ghaziani

First of all Congratulations to reach this milestone.

Since 8 months I've been getting the newsletter from MASA and since then I got a lot of awareness about activity of Memon community in KSA through it. "The Newsletter contains informative news, smiling jokes & impressive Quotes to think." "I always have been waiting for monthly Newsletter, so please keep it continue.

Thanks & Regards.

We received overwhelming response with one word "Yes" means Newsletter is informative and useful for the community and it should be continued. Some responses we have received that contain more than one word are reproduced in the left column enabling everyone to evaluate the necessity of Newsletter in the community. Thanks to the community for their interest and support, that is the reason, Newsletter has completed Five Years of its smooth journey. الحمد لله

Please send us write ups, suggestions, ideas, views, opinions for newsletter that may be informative and beneficial to the community and also could be of guidance to us. We sincerely regret if there is any unintentional error, omission, oversight or typing error in this News Letter.

Thanks to the entire community once again and looking forward to continued support and cooperation in the future.

Lastly, on behalf of Memon Welfare Society, we express our Gratitude to a young boy of our community and high school student, **Mohammed son of Ahmed Kamal Makki** for providing MWS-MASA with his voluntarily & complimentary services of Photography with his own professional Camera in last three events. In recognition of his said services, he shall be awarded with a Token of Appreciation in our next event, انشاء الله. Wishing him all the best and success in his future life.

Best regards

Announcements:

- ✓ Holy month of Ramadan will begin in the current month. Ramadan Mubarak in advance to all community members. Our Managing Board has decided in its meeting that an **Iftar Party** for Male members of the community will be held on 7th July 2014 corresponding 10th Ramadan.
- ✓ A limited charity fund is collected in Ramadan since last 2 years, for assistance throughout year, to needy brothers and sisters of community as well as to help non memons in emergency especially in health care and education. Please contribute in charity fund to help needy people.
- ✓ Third Annual Prize distribution event for meritorious students will be held upon opening of schools after vacation. A circular will be issued for Meritorious students to submit their transcripts after Ramadan. Keep it ready.
- ✓ There will be elocution contest among students and youth of our community. They will be asked to express their views on various topics related to education, career building etc. It will be arranged in Prize Distribution event.
- ✓ Youth of community is requested to come forward to form a Cricket Team which will entirely be sponsored by M.Iqbal Advani.
- ✓ We request community members to please identify to us, if they know poor family(s) of our community who cannot afford education fee/books of their kids and are hesitant to contact us. MWS-MASA shall provide them with necessary help for education of their children very confidentially.

The Welfare Services of Memon Welfare Society

میمن ویلفیئر سوسائٹی کی فلاحی خدمات

- ✓ Helping poor students for education fee
- ✓ Helping Community members for health care for those who cannot afford
- ✓ Helping in Coffin & Burial Services
- ✓ Helping & guiding unemployed in seeking employment
- ✓ Voluntarily Matrimonial services
- ✓ Beside above we are assisting some Madrassa by paying fees of needy students and school where the students will receive free education who cannot afford even the nominal fee.
- ✓ We also hold other social & welfare activities for our community such as Seminar, Families get to gather together, Career guidance sessions, evening with scholar, and also help financially and materially the victims of natural disaster such as flood in Pakistan and Earth quake etc.
- ✓ During last one year we have sent five shipments of used clothes for poor people in Pakistan & India.
- ✓ We also collect unused medicines for free medical camps organized by Pakistan welfare Society in Consulate General of Pakistan Jeddah.

No doubt, Memon Welfare Society is playing a significant role by providing an opportunity to the community families to meet, greet and eat together from time to time, which is a piece of good fortune. It is worth mentioning that we have formed various committees to undertake their respective responsibilities and assignments.

In brief MWS is purely social and welfare forum to serve the community and humanity.

- تعلیم اور مدرسے کی فیس کے لئے غریب طالب علموں کی مدد

It is indeed a marvelous achievement for MASA for completing five years of issuance of its MASA News Letter for community members. Such attempt through MASA Newsletter to inform the community about MASA activities, other related news and various types of information for elders, youths and children is indeed appreciated and commendable.

I convey my best wishes to the team of MASA and hope that this task will be continued for the greater interest of Memon Community in Saudi Arabia and around the world.

I would like to congratulate the whole team for the wonderful and comprehensive newsletter. The new look of the newsletter is just amazing. For your question about continuing the issuance of newsletter, from my side its a BIG YES.

Thanks for updating us with the community news and putting your efforts and valuable time to finalize the newsletter and circulate on 1st of every month, Tayyab bhai your regularity in circulating the newsletter is really commendable.

Best regards,

Dear Community Members

I take this opportunity to convey my heartiest congratulations on completing 5 years since issuance of 1st newsletter.

Nevertheless MASA newsletter is one of its kinds to also working as well as offline community member with ongoing charitable activities & upcoming events, a part of this keeps us up to date with the changes and growth of our community such as development of human capital, gratitude of brilliant students, demise of our legends and so on....

And last but not the least... Smiling corner is a source of recreation in our tiring life schedule; we don't want to miss it ;-)

Me'araaj-un-Nabi(S.A.W.) in light of Modern Science

By: Qasim Abbas (Toronto, Canada)

According to Muslim Scripture Holy Quran, approximately 1,400 years ago, on 26th night in the seventh Islamic month of Rajab, Islam's Last Messenger Hazrat Muhammad (P.B.U.H.), in person, physically and in awakening state, had visited his Creator Almighty Allah. This event is called ME'ARAJ in Arabic language i.e. ASCENSION. The journey was at un-imaginable height and millions of light years away from the earth.

The Holy Quran mentions this event as under:

"Glory to Allah, Who took His Servant for a journey by night from the sacred Mosque to the farthest Mosque, whose precincts We did bless, in order that We may show him some of Our signs, for He (Allah) is the One, Who hears and sees all things (17:1)

"He was taught by One Mighty in Power. Endued with wisdom, for he appeared (in stately form). While he was in the highest part of the horizon. Then he approached and came closer. And he was at a distance of but two bow-lengths or (even) nearer. So did Allah convey the inspiration to His servant - conveyed, what he meant to convey. The Prophet's mind and heart, in no way, falsified that which he saw." (53: 5, 6, 7, 8, 9, 10 & 11)

1.6 billion Muslims, living on this earth have absolute and unconditional faith that Islam's Last Messenger Hazrat Muhammad (P.B.U.H.) had travelled at night, at un-imaginable and un-thinkable height to space, millions of light years away from earth, in person, physically and in awakening state. And he had returned back to earth before sunrise the next morning i.e. within less than 24 hours.

The fact behind this seemingly impossible event is that, Almighty Allah is All Powerful on all the things i.e. ALAA KULLESHAYEEN QADEER (2:284) i.e. "Allah has power over all things." (2:284). The matter seeming impossible to human being, it is absolutely possible for Almighty Allah, as revealed in the Holy Quran:

".....KUN FAYAKOON!" (36:82) i.e. "Verily, when He (Allah) intends a thing, His command is, 'Be, and it is!' " (36:82)

Therefore, it was the fact that in one night, Islam's Last Messenger Hazrat Muhammed (P.B.U.H.) travelled in space at night, millions of light years away from the earth and returned back the next morning. And if anyone may think this as impossible, un-imaginable and un-thinkable, the fact is that today's modern science confirms this event. If we see the event of ME'ARAJ (Ascension) in light of modern science, we can find the proof thereof. Let us try to understand the THEORY OF RELATIVITY, invented by 20th century Noble Prize winner scientist Albert Einstein.

This great scientist of 20th century Albert Einstein was awarded Noble Prize for his invention of THEORY OF RELATIVITY. This THEORY OF RELATIVITY is very much complicated and is based on very sophisticated and complicated laws of time and space. Let us try to understand the event of ME'ARAJ in light of and with the help of THEORY OF RELATIVITY in plain language.

When a spacecraft, with astronaut, is launched in space, and after going beyond earth atmosphere i.e. in space, the astronaut experiences himself in weight-less state. Similarly, in spacecraft, travelling in space, beyond earth atmosphere, at very very high speed, according to THEORY OF RELATIVITY, time-less state is also being created. For this, we have to understand the speed of light.

Light travels at the speed of app. 186,000 miles (app. 310,000 kilometres) per second. According to sophisticated and complicated laws of THEORY OF RELATIVITY, a space craft travelling at 99% of speed of light, beyond earth atmosphere in the space, the period of 100 years of earth is only 14 years in space. It means during this period of 14 years in spacecraft, travelling at 99% of speed of light, the period of 100 years has passed on earth.

Writing a news letter, composing the materials and collecting photographs and informative and decent articles from various sources, specially providing accurate religious information etc., is not a child's play. Lots of time and dedication is required to compose such a news letter and also give it a beautiful look and always keep on improving, is a giant task. I have hardly seen any article being written by any MEMON brother or sister, or even shared. The MASA news letter team has done a wonderful and very Nobel and selfless task in publishing MASA news letter and that too, for the whole 5 years without fail. I am a proud member of MASA, also I am one of the board member, and I feel that beside many other achievements of MASA, the success of newsletter speaks for itself that without any doubt, this is a grand contribution of MASA news letter team for the constant benefit of MEMON community. Ask yourself, what you have done for MEMON Community.....
Salim Burmawala

...,from pre-page

To understand this sophisticated truth, Albert Einstein gives an example this way. Suppose there are 2 youths, both of 25 years of age. One youth stays on earth and second youth travels in a spacecraft travelling beyond earth atmosphere in the space, travelling at 99% of speed of light. Under these circumstances, when the second youth will return to earth after 100 years, his age at that time will be 39 (25 +14) years only. Whereas the age of first youth, who stayed on earth, his age will be 125 (25 + 100) years. This is the simple way explanation of THEORY OF RELATIVITY.

(One Light year means the distance equivalent to the distance the light travels in one year at the speed of app. 186,000 miles i.e. app. 310,000 kilometres per second).

This is the scientific explanation of TIME and SPACE in relation to and in light of THEORY OF RELATIVITY, by which the event of ME'ARAJ is backed and confirmed. The mode of conveyance used by Islam's Last Messenger (P.B.U.H.) for ME'ARAJ was BURRAQ (meaning: OF LIGHTNING from Arabic word BURQ). If BURRAQ is considered a spacecraft for the purpose of understanding the event of ME'ARAJ, then this event can be understood easily. Though the speed of BURRAQ was much faster than spacecraft travelling at 99% speed of light, because Almighty Allah, who is All Powerful on all the things, He can do all the things possible. Then how the event of ME'ARAJ cannot be termed as in person, physically and in awakening state?

Health corner:

Coronavirus

A coronavirus is a kind of common virus that causes an infection in your nose,sinuses, or upper throat. Most coronaviruses are not dangerous.

Some types of them are serious, though. More than 100 people have died from Middle East respiratory syndrome (MERS), which first appeared in 2012 in Saudi Arabia and then in other countries in the Middle East, Africa, Asia, and Europe. In April 2014, the first American was hospitalized for MERS in Indiana. He had just returned from Saudi Arabia. People also died from a severe acute respiratory syndrome (SARS) outbreak in 2003. Both MERS and SARS are types of coronaviruses.

But usually a coronavirus causes common cold symptoms that you can easily treat with rest and over-the-counter medication.

What Is a Coronavirus?

Coronaviruses were first identified in the 1960s, but we don't know where they come from. They get their name from their crown-like shape. Sometimes, but not often, a coronavirus can infect both animals and humans.

Most coronaviruses spread the same way other cold-causing viruses do, through infected people coughing and sneezing, by touching an infected person's hands or face, or by touching things such as doorknobs that infected people have touched.

Almost everyone gets a coronavirus infection at least once in their life, most likely as a young child. In the United States, coronaviruses are more common in the fall and winter, but anyone can come down with a coronavirus infection any time.

Common Symptoms of Coronavirus

The symptoms of most coronaviruses are similar to any other upper-respiratory infection, including runny nose, coughing, sore throat, and sometimes a fever. In most cases, you won't know whether you have a coronavirus or a different cold-causing virus, such as rhinovirus.

You could get lab tests, including nose and throat cultures and blood work, to find out whether your cold was caused by a coronavirus, but there's no reason to. The test results wouldn't change how you treat your symptoms, which typically go away in a few days.

But if a coronavirus infection spreads to the lower respiratory tract (your windpipe and your lungs), it can cause pneumonia, especially in older people, people with heart disease, or people with weakened immune systems.

Dear Tayyab Bhai,
 You have put a valid question, but I think to ask that do we need the newsletter and not responding to the request will be a great insult for the maker as well as those who support you to prepare such a fantastic and wonderful Job and it is not a joke to issue such letter without fail on the 1st of every month. I on behalf of Memon Community give you a standing ovation and a salute of respect and appreciation for your tireless and relentless efforts. Thank you very much Jazah Kal Lallah fe Khair, may Allah bless you health and all success for your social service without any benefits. May the Memon community appreciate or not your work and dedication speaks by it self.

What to Do About Coronavirus

There is no vaccine for coronavirus. To prevent coronavirus infection, do the same things you do to avoid the common cold:

Wash your hands thoroughly with soap and warm water or with an alcohol-based hand sanitizer.

Keep your hands and fingers away from your eyes, nose, and mouth.

Avoid close contact with people who are infected.

You treat a coronavirus infection the same way you treat a cold, too:

Get plenty of rest.

Drink fluids.

Take over-the-counter medicine for sore throat and fever (but don't give aspirin to children; use ibuprofen or acetaminophen instead).

A humidifier or steamy shower can also help ease a sore and swollen throat.
